

UNYTECH04 – Universities of Upstate New York Venture Forum is being held on September 20th at the Sheraton Syracuse University Hotel & Conference Center in Syracuse, New York. This event will connect technology-based companies representing diverse investment stages and funding requirements with investors and service providers who can help accelerate their growth.

Over a dozen companies who have licensed technologies from one of the participating institutions will present their business plan and investment opportunity. Examples include:

- Biopharmaceutical development company raising \$750,000
- Medical device company raising \$3 million
- Nanomaterials company raising \$500,000
- Biopharmaceutical company with novel compounds raising \$1.2 million
- Distributed energy generation technology company raising \$500,000

UNYTECH04 also provides opportunities to network and explore new partnerships and emerging technologies.

Nanotechnology Roundtable

Find out what every investor and business executive should know about the hot sector of **NANOTECHNOLOGY**, and its impact on current and future commercial products.
Sunday, September 19th during the Welcome Reception (6 - 8pm)

Emerging Technologies Poster Session

Participating institutions will be exhibiting their emerging technologies and research initiatives that will be shaping our future in the years to come.

Perspectives on Technology Transfer

Hear from a distinguished panel of investors, university officers, and entrepreneurs talk about their experience in commercializing university technology and growing it into a successful company. *Monday, September 20th during the Luncheon (12 noon)*

Networking

Interact with venture capitalists, angel investors, entrepreneurs, researchers, university commercialization representatives and prospective business partners.

Register Today!

Last year the event was sold out weeks in advance and space is limited again this year. Don't miss out on your opportunity to attend.
